[Map1.pdf](#)

To all:

See attached draft drawing with the Depth to BMSW (tracing from Plate 4 from SS 144) and depths to BMSW posted from the Petroglyph provided well logs. The depths noted don't seem to correlate with the data from SS144. Please advise resolution of this apparent discrepancy. It looks like the Depth values were derived from Plate 1 (Elevation Map) from SS144 as referenced on the logs.
